PRODUCTS

CHEMICAL SPILL KIT

A chemical spill kit should be in any setting where chemicals are being used. This kit provides the materials to clean up any spills that may occur.

Item No. 42C1

CHEMICAL SUIT

A chemical suit protects clothes from chemical splashes. This one-piece suit protects against chemical spills.

Item No. 42C2

DISPOSABLE GLOVES

Disposable gloves are used when working with chemicals. These are thin gloves that do not provide heat protection.

Item No. 42D1

FACE MASK

A face mask is used to protect against laboratory bacteria.

Item No. 42F1

FACE RESPIRATOR

A face respirator is used when working with chemicals that may cause fumes. The face respirator includes a filter to protect the nose and mouth from toxic chemicals.

Item No. 42F2

FIRST AID KIT

A first aid kit is important for all jobs. If someone is hurt on the job, the supplies in a first aid kit can be used immediately. This kit includes bandages, burn cream, tape, first aid ointment, and other supplies.

Item No. 42F3

FORKLIFT

A forklift is a large piece of machinery. It is used to lift heavy boxes and other materials. It protects the back from doing heavy lifting.

Item No. 42F4

PRODUCTS

GOGGLES

Goggles protect the eyes from chemicals, fire, or any other danger. Goggles help prevent objects from splashing into the eyes.

Item No. 42G1

HAIRNET

A hairnet is used when working with food and drink products. It prevents hair from falling into the products.

Item No. 42H1

HARD HAT

A hard hat is needed when working in areas where objects might fall from above. Objects might be boxes, construction materials, or tools.

Item No. 42H2

HEAT PROTECTION GLOVES

Heat protection gloves are used when working with hot materials. They also protect against chemical splashes.

Item No. 42H3

HEAT PROTECTION SUIT

A heat protection suit protects the clothes and body from hot materials. This suit also protects against chemical splashes.

Item No. 42H4

KNEE PADS

Knee pads protect the knees from hard or rough surfaces. They are used when doing a job that requires a lot of kneeling.

Item No. 42K1

LIFE JACKET

Life jackets are important to keep a person floating in water. They are needed for any job that involves swimming or working near lakes, rivers, or pools.

Item No. 42L1

STEEL-TOE BOOTS

Steel-toe boots provide extra protection in the toes. They are used when heavy items might fall on the feet. They also protect from punctures.

Item No. 42S1
